## 2021 PVS Study

The Borden ISD was assigned local appraised value, an indication that the Borden CAD is generally appraising property at current market value.

## Biennial Property Value Study or Methods and Assistance Program

Property Tax Assistance Division of the Comptroller’s Office (PTAD) alternates between a Property Value Study (PVS) and a Methods and Assistance Program (MAP) review for each CAD. Borden CAD has its PVS in odd numbered years and its MAP reviews in even numbered years.

The PVS is conducted to determine the degree of uniformity of appraisals and the median level of appraisals by the appraisal district and to determine the taxable value of property for school funding purposes.

The MAP reviews the governance of the appraisal district, taxpayer assistance provided and the operating and appraisal standards, procedures and methodology used to determine compliance and generally accepted standards procedures and methodology.

## 2022 Protest Data

The ARB is a quasi-judicial body appointed by the District Judge of Borden County. The ARB is empowered to equalize values of all properties in the appraisal district in relation to fair market value and to hear taxpayers' appeals through hearings for those that dispute their value or other issues affecting the taxpayer. The ARB is in charge with the function of providing an impartial review of the appraisal records prepared by the appraisal district. The ARB does not work for the appraisal district but rather, they arbitrate between the taxpayer and the appraisal district to settle any disputes that they are lawfully allowed to address.
